## Cork Artwork Specifications:

Listed below are the various formats we can use to produce branding artwork in order of preference:

---

### 1. Adobe Illustrator Files

File ends with an .eps or .ai (for example: corkart.eps or corkart1.ai)

Font tip:

If your cork artwork has a unique font, you can attach the font file to your email. You can also select your text in Adobe Illustrator and then go to the "Type" menu and select "Create Outlines" and save file as .ai, .eps, or .pdf

### 2. PDF Files

PDF files supplied by your graphic person in charge of stationery and wine labels.  
(Be sure he/she has created outlines on fonts)

### 3. Other High Resolution Files

Files ending .tif, .bmp or .psd

These images should be at least 600 dpi (dots per inch) or higher.

Do not need to create outlines on these files if the dpi is higher than 600.

### 4. Stationery or Business Cards

Provide stationery/business card with company logo in black and white (not gray) and please mail it to M.A. Silva so we can scan it at a high resolution.

*Website artwork is usually 72 to 150 dpi  
and comes at too low a resolution for us to use.  
These files end with .jpeg or .gif*

#### Contact for artwork:

Sue Galvan

sue@masilva.com

Phone: 707.636.2530

Fax: 707.636.2531

Our mission is to provide the finest natural corks  
and other closures to the premium wine industry of North America,  
demonstrating impeccable integrity and consistent personal service.

*Always.*
