

MASILVA USA
THE PERFECT FIT FOR YOUR WINE

Natural Cork

Natural wine corks are preferred for all types of wine, aging periods, and bottle formats.

THE TIMELESS CLASSIC

No other natural product offers this combination of visual appeal, neutrality, sustainability, and consistent sealing qualities.

GRADES AND WASHES

We offer a full assortment of grades, ranging from near visually perfect for ultra-premium wines and lower grades intended for value priced wines of higher-volume labels. Each grade is offered in three different cleansing washes. Standard lengths and custom sizes are available.

CLEANSING AND STERILIZATION

Every cork goes through our innovative cleansing and sterilization processes resulting in corks that exceed the highest industry standards. Our SARA ADVANCED® innovative technology utilizes dry steam to effectively remove phenolic compounds, potential TCA and other off-aromas resulting in maximum neutrality.

CLEANSING PROCESSES

DYNAVOX®, SARA ADVANCED®, MASZONE®
